OAKEY STATE HIGH SCHOOL BYOx PROGRAM

Oakey State High School runs a 1-1 Bring Your Own Device (BYOx) program for ALL students in ALL year levels. Students will need to attend school with their device every day.

BYOx Program Highlights

- Students in the program are required to bring their own laptop to school every day fully charged.
- BYOx will enhance student performance, enhance teaching and learning, and improve data literacy skills.
- The minimum required specification (see below) is about technical specifications not brands or models.
- Students, parents, or carers are required to sign the BYOx Handbook (see website) regarding how the device can be used at school. When signed, you have agreed that your child brings their own device to school every day. This is also signed by parents at enrolment.
- The OSHS IT Technician is available to assist and answer technical questions.
- School does not manage, support, own, or guarantee the device. This remains the responsibility of families.
- Student owned devices connect to the school network via the 'BYOD Solution' which provides students with secure login to the network enabling access to in-school digital resources and the internet, protected by Education Queensland's filtering and reporting systems.
- If you are having financial difficulties, please contact the school in Term 4 to have a conversation about options.
- QLearn, Office365, and other educational online platforms are used in classes. These platforms have a personal workspace for every student, a content library for their handouts and a collaboration space for lessons and creative activities.

I have my device, what now?

Bring your compatible, updated, and fully charged device from day one. Our school website has details on how to onboard your device, with a link to this video: https://mediasite.eq.edu.au/mediasite/Play/715e41cecde3404488298ecca633f6ad1d.

If you have any issues following this process, please contact the school for assistance. Unfortunately, this process cannot be completed at school as the device will not connect to the network, so it must be done at home.

Take this flyer when shopping for your device. Your device needs to meet all the minimum requirements.

Note: Chromebook and Android devices are not compatible with school network. Apple MacBooks can also have challenges connecting.

Devices with these specs will have greater longevity.

	Minimum	**Recommended**	**Application intensive subjects (Digital Tech, Graphics, Media)**
Processor	Intel i5 11th Gen or Ryzen 5 5600x	Intel i5 12th Gen or Ryzen 5 5600X3D	Intel i7 12th Gen or Ryzen 7 5800
RAM	8GB	16GB	16-32GB
Storage	256GB	512GB	1TB
Screen	10 inches diagonally and support resolution of at least 1280x720	>10 inches diagonally and support resolution of at least 192x1080	144MHz* refresh rate recommended
Operating System	Windows 11 Home	Windows 11 Home/Professional	Windows 11 Home/Professional
Wireless	**Must have 5ghz**	**Must have 5ghz**	**Must have 5ghz**
Graphics	Integrated	Integrated	Independent GPU
Features	USB 3.0 port, 3.5mm Headphone Port	USB 3.0 port, 3.5mm Headphone Port, Bluetooth	USB 3.0 port, 3.5mm Headphone Port, Bluetooth
Battery Life	>5 hours	>5 hours	Battery life is dependent on the load that will be exerted on the laptop. Charging cables are required for every lesson.
